INTRODUCTION

CSBM CAMPUS

The CSBM Campus was established in 2016 by corporate leaders and academics to create a "Business School for the Nation". It offers higher education, professional and executive training, career development, research, business support, and consultancy. CSBM provides experiential learning opportunities in business, management, entrepreneurship, finance, and beyond, and has built global partnerships with recognized institutions. Its unique curricular approach, faculty blend of professionals, top corporate leaders, and academia, and corporate networking opportunities provide unparalleled access to mentorship and grooming opportunities.

“OUR VISION AND MISSION”

VISION

To be the premier business school and corporate campus that nurtures global business leaders who create the future.

MISSION

To deliver high quality academic, executive and professional program with a thorough understanding of the global and local business environment and sustainable management principles, utilizing innovative and appropriate teaching methodologies and technologies.

- To create and disseminate new knowledge and thinking in leadership and management.
- To develop innovative and socially responsible leaders who understand the impact of business on society and create value through business.
- To collaborate with global institutions and be progressive, whilst facilitating internationally renowned programs in Sri Lanka
- To work with corporate and public sector institutions to build the capacity required to drive Sri Lanka's socio economic development.

CORPORATE MANAGEMENT

Pradeep Alexander

Director/CEO

MBA(Finance)UsJ, MA in Fin. Economics UoC, MSc. in Project Mgt.
AuU Malaysia, B.Com.Sp.Acc. Hons.UsJ, ICMA, CILT, CA-Inter,
ACCA-Final

Over the past 25 years, Mr. Pradeep has accumulated extensive experience in both finance and non-finance sectors, overseeing a wide range of industries including investments, property development, real estate, shipping, education, hospitality, health-care, IT, and internal/external audit. As key talents, the ability to apply a pragmatic approach with a strong commercial focus and his ability to possess keen attention to cost management within budgetary constraints, while ensuring that the quality of outputs remains uncompromised in the pursuit of strategic corporate objectives is noteworthy. Mr. Pradeep holds a Second Class B. Com degree in Accountancy from the University of Sri Jayawardenepura, complemented by three Master's qualifications in Finance, Financial Economics, and Project Management from esteemed institutions. He is currently pursuing a PhD in Finance. With a career spanning from Audit Trainee to various high-level finance positions, including Group General Manager-Finance. He has garnered extensive experience in diverse Sri Lankan companies, transitioning to CEO roles in the Manufacturing and trading sector with multinational corporations which further enriched his professional background. In academia, he ascended from a visiting lecturer roles such as Head of the Faculty of Management, Director of Graduate School, Vice Chancellor, and Chairman of the Board of Studies at recognized higher education institutes. Additionally, Mr. Pradeep provides specialized Business Finance consultation to Tea Manufacturing and related industries in Sri Lanka, showcasing his multifaceted expertise.

Faculty of Management & Finance

Executive Development Program (Mini MBA)

The Mini MBA Program aims to enhance business skills and leadership capabilities in high-potential executives, providing conceptual frameworks for strategy setting, decision-making, and effective leadership, while equipping them with essential management skills and techniques.

Diploma in Practical Business Management

Many business management education programs in the country prepare participants for job searching. This is common to degree programs which are focusing to generate graduates who are job searchers especially, in the public sector. Traditionally many graduates also have an attitude that providing jobs for them is an absolute responsibility of the government. Even having considerable academic know-how and business skills graduates are reluctant to initiate their own businesses or embrace entrepreneurship. Considering the gradually sinking employment opportunities in society it would be a remarkable responsibility of academic institutions to prepare their graduates to grow their own business initiatives to make the business education systems

Higher National Diploma in Business (Management) Pearson | BTEC

The Pearson BTEC Higher National Diploma in Business (Management) is a comprehensive vocational qualification that equips students with practical skills in leadership, marketing, finance, and human resource management. It is highly regarded by employers and offers students valuable work experience through internships or practical projects.

Executive Diploma in Leadership and Management

The diploma program aims to improve executive and junior manager skills, preparing them for senior management roles. It covers advanced leadership and management aspects, including team planning, organization, implementation, and monitoring, aligning with the Sri Lanka Quality Framework and UK NARIC frameworks.

Qualifi Level 3 Diploma in Business Management (Foundation)

This program is designed to develop strategic leadership and managerial excellence. It provides a comprehensive understanding of key business principles, equipping individuals with the knowledge and skills to navigate the corporate world. The program fosters critical thinking, problem-solving, and effective decision-making. Participants benefit from a dynamic learning environment, engaging with industry-relevant case studies and practical applications. The foundation acts as a catalyst for professional growth, empowering individuals to thrive in dynamic business environments and contribute to organizational success.

Advanced Certificate in International Trade Management

The Advanced Certificate in International Trade Management is a comprehensive program that covers fundamentals of global trade, export and import procedures, market analysis, trade finance, logistics and supply chain management, legal and regulatory compliance, cultural sensitivity, and trade promotion and marketing. It also covers market research, risk mitigation, and compliance with international laws and regulations.

Certificate in Solid Waste Management

After analyzing the waste management in Sri Lanka we, at CSBM Campus & Waste Management Authority, have identified immense opportunities to build the sector with hybrid training and development programs based on our mutual knowledge and wisdom to enhance the capacity of members who are related to solid waste management to achieve vistas of prosperity which introduced by the government of Sri Lanka.

Certificate & Diploma in Sales & Marketing

This program offers a dynamic curriculum focusing on sales and marketing skills. It covers market research, consumer behaviour, strategic planning, and effective communication tactics. Students gain hands-on experience through case studies, real-world projects, and industry-relevant simulations. The curriculum is updated to reflect industry trends and technology. Graduates are well-prepared for various job options, including sales management, digital marketing, brand building, and market analysis. The program is designed to equip students with the necessary skills for success in the competitive sales and marketing industry.

Finance for Non-Finance Professionals

The program aims to equip non-financial professionals with finance skills, enabling them to understand financial implications of decisions and contribute to their organization's financial success through key financial terminology and concepts.

Effective Finance for Finance and Non-Finance Professionals in Tea Factories in Sri Lanka: A Hands-On Workshop for Tea Factory Professionals

The workshop aims to improve financial literacy among non-finance employees of tea factories by teaching them how to read and interpret financial statements, such as balance sheets, income statements, and cash flow statements, thereby enabling better economic decisions and boosting business operations.

Taxation for Professionals & Personal Development

This program aims to provide professionals with competence in the complicated topic of taxes while also encouraging personal development. It covers advanced tax tactics, regulatory compliance, and new trends, preparing professionals to handle the ever-changing tax world. Practical case studies, workshops, and discussions will be held to help participants improve their analytical and decision-making abilities. Personal growth is also emphasized in the curriculum, including modules on communication, leadership, and time management. Graduates will be well-rounded persons and experienced tax professionals, ready for success in both their employment and personal life.

Continuous Professional Development Program

The Continuous Professional Development Program is a structured course that gives professionals in their respective industries with continual learning opportunities. It blends academic and practical knowledge to ensure a well-rounded skill set. The program, which is led by industry leaders and educators, promotes collaborative learning through workshops, seminars, and interactive online modules. It emphasizes on adaptability and relevance, meeting the changing demands of professionals looking to flourish in today's competitive environment.

CORE Program (Infer Consulting New Zealand)

- C Communication and Connection
- O Opportunity and Observation
- R Respect and Resilience
- E Energy and Efficiency

WHAT IS CORE?

The CORE training program is a modular executive development course designed for mid and senior professionals, utilizing psychological theory to equip participants with evidence-based resources to enhance their skills, work effectively, and boost productivity and effectiveness.

Faculty of Languages

IELTS | TOEFL | PET

The Faculty of Language caters to various English language learners, including those studying for IELTS, TOEFL, and PET tests. It focuses on improving listening, speaking, reading, and writing abilities while adhering to exam criteria. Students participate in interactive classes, practice exams, and real-life simulations to gain confidence and familiarity with test formats. Expert teachers help students master exam methods, time management, and effective communication, ensuring they are well-prepared for their goal results. The faculty empowers students with linguistic proficiency and strategic skills for success in these internationally recognized English language assessments.

Public Speaking and Presentation Skills for Professionals

The Public Speaking and Presentation Skills for Professionals program aims to improve communication skills and reduce anxiety in public speaking. It offers a comprehensive curriculum, interactive workshops, practice sessions, and personalized feedback to help participants excel in both professional and personal communication settings.

Practical English Communication

The Practical English Communication program aims to equip participants with the essential language skills needed for success in personal and professional contexts. By focusing on practical communication, cultural awareness, and real-life situations, this program will empower individuals to confidently engage in English-language environments.

Business English for Job Seekers

The Business English for Job Seekers program is an 8-week course that equips job seekers with language and communication skills for success in the job market. It combines language instruction with practical career content, fostering confidence and success in interviews and professional environments.

Faculty of Information Technology

Diploma in Graphic Designing

The Faculty of Information and Technology at our university is a dynamic hub of innovation and learning, dedicated to shaping future leaders in the rapidly evolving field of technology. Our expert faculty members bring a wealth of industry experience, fostering a vibrant learning environment where students gain both theoretical knowledge and practical skills. With cutting-edge programs, we empower students to thrive in the digital landscape and contribute meaningfully to the advancements in information technology especially within the fields of digital marketing and graphic designing.

Certificate & Diploma in English & IT

Our faculty offers a certificate and diploma level program that focuses on English language development and Information Technology. It covers grammar, writing, and communication skills, as well as hands-on experience in software applications. The Certificate provides a foundational understanding, while the Diploma offers advanced expertise, preparing graduates for diverse career paths in English and IT fields.

Executive Certificate in Digital Marketing

The Faculty of Information and Technology at our university is a dynamic hub of innovation and learning, dedicated to shaping future leaders in the rapidly evolving field of technology. Our expert faculty members bring a wealth of industry experience, fostering a vibrant learning environment where students gain both theoretical knowledge and practical skills. With highly trending programs, we empower students to thrive in the digital landscape and contribute meaningfully to the advancements in information technology.

Advanced Excel Skills for Professionals: Mastering Advanced Functions for Professional Growth

Microsoft Excel isn't just for arranging data – it gives users the tools to interrogate data to find valuable new insights. Spreadsheet software remains as one of the most ubiquitous pieces of software used in workplaces across the world. Learning confidently to operate this software means adding a highly valuable asset to organizational efficiency and effectiveness. From this workshop, participants will learn ways to make your job easier and increase the sophistication of your data reporting and analyzing.

Faculty of Social Sciences

Bachelor of Science (Hons) in Psychology & Counselling (KIIT University)

The KIIT University's Bachelor of Science in Psychology and Counseling program offers a comprehensive, dynamic program that combines psychology with practical counseling skills, providing students with a deep understanding of human behavior, mental processes, and psychological theories.

Higher Diploma in Sports & Exercise Science

The Higher Diploma in Sports & Exercise Science is a comprehensive program that equips students with knowledge and practical skills for a successful career in sports and exercise science. It integrates scientific principles with practical applications, providing a deep understanding of human anatomy, physiology, and biomechanics. The program focuses on theoretical coursework and hands-on laboratory sessions, preparing graduates to assess and enhance athletic performance. It emphasizes critical thinking and problem-solving skills, empowering individuals to contribute effectively to the advancement of sports and exercise science in various professional settings.

Certificate & Higher National Diploma in Care Giver

The Certificate and Higher National Diploma in Care Giver are comprehensive programs that equip individuals with essential skills for a rewarding career in providing care. These programs cover healthcare fundamentals, communication skills, and specialized caregiving techniques. Participants gain a deep understanding of physical, emotional, and social aspects of caregiving, and gain practical experience through hands-on training. Upon completion, graduates hold a recognized qualification, opening doors to fulfilling roles in healthcare and social service settings.

Practical Diploma in Mental Health

The Practical Diploma in Mental Health is a program that equips individuals with the skills and knowledge to navigate the complex mental health landscape. It provides a deep understanding of mental health disorders, their causes, and evidence-based treatment approaches. Students learn theoretical learning and practical training to assess and support individuals facing mental health challenges. The diploma covers critical topics like crisis intervention, communication strategies, and ethical considerations in mental health care. Graduates are well-prepared to make a positive impact in community settings, healthcare facilities, or support teams.

Advanced Certificate in Drugs Law Enforcement

The primary goal of the Advanced Certificate in Drug Law Enforcement course is to provide Training in specialized investigating techniques by focusing on drug trafficking in the region and the management principles of techniques. The training preset skills necessary to plan, organize , and operate in the drug enforcement sector.

Pedagogy in Early Childhood & Primary Education

The Early Childhood and Primary Education Program offers a comprehensive foundation for aspiring educators, covering holistic development, pedagogy, classroom management, curriculum design, guidance, and counseling. Students gain practical skills through placements in teaching children aged 0 to 12 years. The program aims to establish a solid foundation for children, preparing them to provide diverse teaching styles, stimulate their brains, and engage in both indoor and outdoor learning.

Business Consultancy and Value - Added Services

We focus on our clients' most critical issues and opportunities, spanning all industries and geographies within the country. With deep functional expertise, we're renowned for our holistic perspective, driving value across organizational boundaries and silos. Our approach yields a proven multiplier effect by optimizing the sum of parts rather than just individual components. Beginning with the client's overall strategy, we analyze and sometimes challenge its direction and with a panel of experts, we've amassed significant sector competence, serving both local and international corporates, government entities, INGOs, and other institutions

- Preparation of Strategic /Corporate/ Business Plan
- Leadership/Management Assessment Centers to cover personality profiling, behavioral analysis, competency analysis & personal profiling
- Advanced Research/Marketing Research & Survey
- Strategic Marketing & Branding
- Sales Strategy Development
- Talent Acquisition & Management, Transformation & Change Management
- Undertaking project Management assignments

Our brand is distinguished for the many customized Corporate Training programs and industry engagement events, such as the "Talk of the Month" and "An evening with a corporate leader" series.

PAST EVENTS

Relive the triumphant moments of the last Certificate Awarding Ceremony at CSBM Campus. Recollect the spirit of academic brilliance and success as we celebrated our graduates for their outstanding achievements on our university stage. At our most recent Certificate Awarding Ceremony at the CSBM Campus, our alumni were acknowledged for their exceptional achievements and commitment to business leadership against a backdrop of academic success. Guest speakers were recognized industry leaders who presented critical insights to inspire the next generation of business trailblazers.

CERTIFICATE AWARDING CEREMONY

DRUGS LAW COURT SESSION

CSBM Campus's legal discipline and scholarly intelligence were on display during a recent Drugs Law Court session. Our university, which is dedicated to creating a thorough awareness of legal complexities, offered students with a once-in-a-lifetime opportunity to observe firsthand the processes of a court case regarding drug legislation. Students acquired significant insights into the complexity of legal proceedings as a result of this immersion experience, which contributed to their overall legal education.

TALK OF THE MONTH

A platform where a corporate “celebrity”, an “executive influencer” or a “social way-maker” is invited to share trending topics or personal experiences to an invited focused audience. These sessions are bilingual for maximum impact and are moderated involving a question and answer time as well as networking opportunities. These sessions are designed to be inspirational, informative and a method to stimulate ideas for the executive and non-executive level of the workforce.

LEADERSHIP PROGRAMS

Our leadership development initiatives have been implemented with both public and private sector companies, demonstrating their beneficial effects. These courses aim to develop innovative and strategic thinking in leaders capable of navigating the particular difficulties faced by each industry. We enable people to create organizational excellence, foster cooperation, and produce sustainable outcomes in their particular industries through a customized strategy.

WOMAN ENTREPRENEUR AWARDS 2019

In order to honor the remarkable accomplishments and tenacity of women entrepreneurs in Sri Lanka, our institution was pleased to organize the distinguished Woman Entrepreneur Awards ceremony in 2019. This event acknowledged and praised women who had significantly impacted the corporate sector, broken down boundaries, and shown extraordinary ingenuity. It demonstrated the remarkable abilities and accomplishments of female entrepreneurs in an inspirational way, emphasizing their critical role in influencing the direction of entrepreneurship.

EVENING WITH CORPORATE LEADERS

This event has been a remarkable platform where influential figures from Sri Lanka's socio-economic landscape, including luminaries like Dhammika Perera, come together to inspire, educate, and network. These events offer a rare opportunity for participants to gain valuable insights, engage in meaningful discussions, and build connections with the country's most prominent leaders.
